

WORLDWIDE Labelling Solutions

Bringing a unique business model to the world

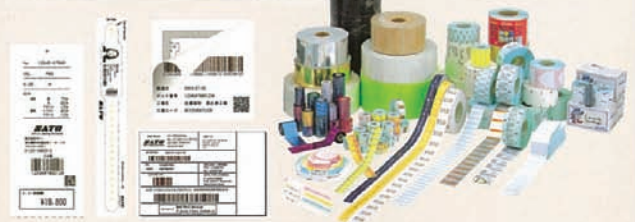

SATO has developed a unique DCS & Labelling concept. Under this concept, we use auto-identification technology to collect and manage diverse information and provide a total solution that incorporates hardware, consumables and maintenance support. Our solutions extend across a broad range of sectors including Manufacturing, Transportation & Logistics, Retail, and Healthcare.

Hardware

Label printers and hand labellers.

Consumables

Stickers, labels, RFID tags, tickets, and carbon ribbons.

SATO proposes comprehensive solutions that encompass hardware, supplies, and maintenance support.

Peripheral Equipment

Scanners, handheld terminals, mobile computers and system connection tools.

Software

Label design software and various customised software packages. E.g. WMS etc.

Maintenance Support

Printer maintenance and regular inspection.

Preprinted Labels (Primary Labels & Stickers)

Proposals for original design and base material.

Transportation & Logistics Manufacturing Retail Healthcare

Industry Focus

SATO combines technology with our industry expertise to provide customers and partners with unique insights into innovative ways to use Automatic Identification and Data Collection (AIDC) technology for long-term competitive advantages. We focus on the following key verticals:

Manufacturing (Accuracy, End-to-End Identification)

Receiving & Outgoing

Scan & match data on items that need to move through the manufacturing line.

Small Item Marking

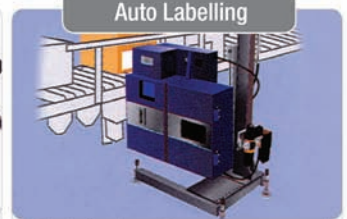

Small pitch labels (3mm x 7mm) precisely printed for PCB boards.

Nameplate Labelling

Nameplate labels printed to use on electrical appliances and industrial products.

Auto Labelling

Print & Apply solutions for automated labelling of carton boxes, products and pallets.

Transportation & Logistics (Identify and Track Assets, People and Transactions)

Receiving

Generate receiving goods information into system and print barcode labels.

Picking

Select items for goods picking. (Scan and match data on items that are needed for shipping)

Shipping

Ship items out and transfer data from scanner to PC again in order to check out the items from the list.

RETAIL (Improve Customer Satisfaction, Prevent Stock-Out)

Price Tags & Markdown Systems

Improve markdown process and operational efficiency, eye-catching labels to ease clearance of perishable products.

Stocktaking

Database software and hardware for handheld scanning system to make stock-taking more efficient.

Food Safety & Traceability

Convenient & accurate food freshness indication. Quality adhesive that can be easily removed and Freezer-Ready.

ABOUT SATO ASIA PACIFIC (SAP)

SATO is a pioneer and leading global provider of integrated Automatic Identification and Data Collection solutions that leverage barcode and RFID technologies. SATO manufactures innovative and reliable auto-identification systems, and offers complete solutions to businesses by integrating hardware, software, media supplies and maintenance services. Customers rely on SATO for accuracy, labour and resource savings helping to preserve the environment.

Founded in 1987, SATO Asia Pacific has established three sales representative offices in India, South Korea and Vietnam. We are represented by a network of more than 40 authorised distributors, VARs and dealers in Indonesia, Philippines, the Middle East and parts of Southern and Central Africa.

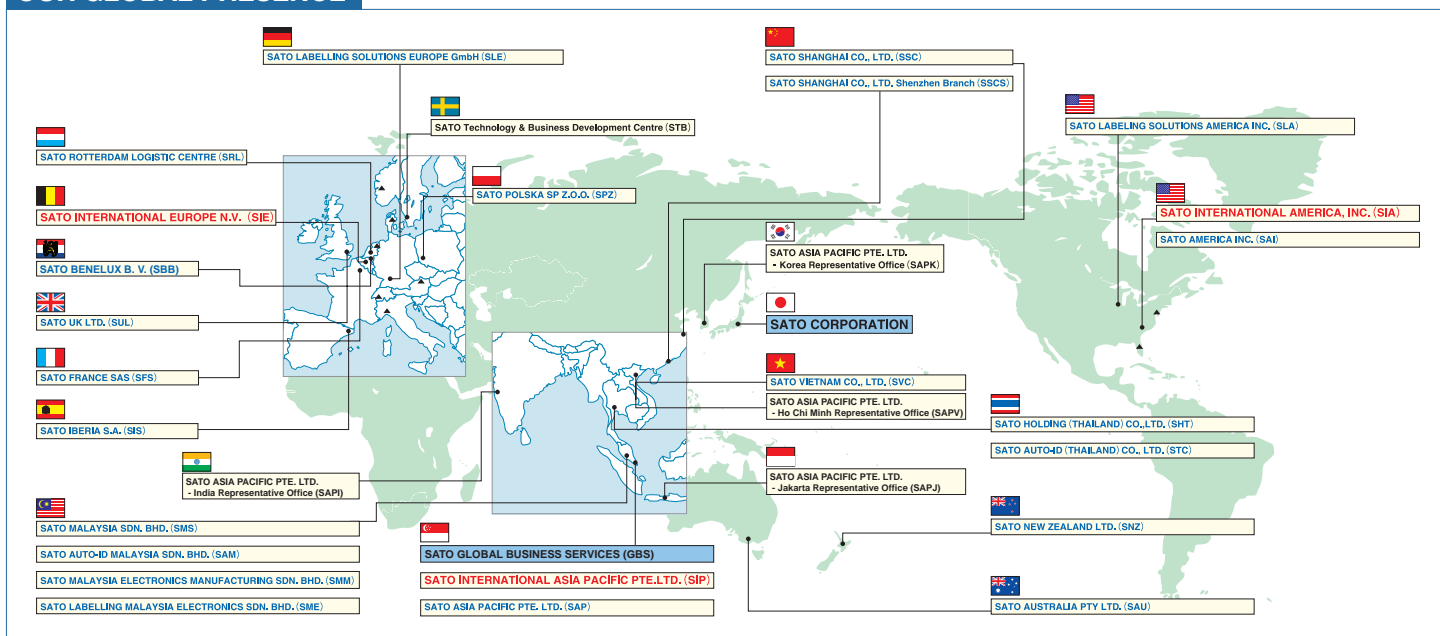

SAP selects the most suitable printers, scanners and software for each customer and provides comprehensive after-sales support for each customer, including the supply of labels, ribbons, tags, cards and other consumables.

Contributing to Society through Our Main Business

SATO uses the DCS & Labelling model to help better every aspect of society and the environment. Our auto-identification technologies such as barcodes, 2D codes and RFID tags & labels help to collect workplace data and feed it into the information processing system precisely and efficiently. This contributes to **precision, labour savings and resource savings** in each business field, while also helping to preserve the environment.
